

# Welcome Home!

It's time to move in and unpack.  
Follow the steps below.

## 1 *Bring everything in.*

Move all belongings directly into your room and avoid leaving anything in common areas.

## 2 *Time to unpack.*

Settle into your space and take items out of boxes and bins.

## 3 *Disinfect and remove trash.*

Disinfect all items before placing them in public areas of the facility, like bathroom caddies. Take all move-in trash, boxes, plastic wrap and other items you won't keep from your room to outside dumpsters.

## 4 *Make it yours!*

Decorate, tidy-up and make your space feel like your own.
