

Is College Panhellenic planning on having all or part of recruitment in chapter facilities? If so, there may be some questions that you want to ask and/or precautions an affiliated house corporation (AHC) takes into account.

RECRUITMENT SCHOOL

- Will recruitment school be in the facility?
- What spaces are large enough that social distancing can be maintained during recruitment school?
- What is the local guidance on how many people can gather?
 - Should recruitment school be broken up into different groups?
 - Should recruitment school be virtual?
- Will food be provided during recruitment school?
- What spaces would be off limits to non-live in members?
- What cleaning will be requested of vendors/members during recruitment school?
- What cleaning supplies and/or hygiene supplies will be available in the facility?
- Will there be any requirements for masks or personal protection equipment?
- Do any furnishings, items or decorations need to be removed to allow for social distancing or because they are soft surfaces that may be difficult to clean?

RECRUITMENT ROUNDS

- Is College Panhellenic requiring a waiver or release to participate in recruitment?
- How many people will be allowed in the facility for each party?
 - Does this number include only active recruiters and potential new members (PNMs) or also members and volunteers working in logistics?
- Are PNMs/initiated members required to wear face masks or personal protection equipment?
- Is the university requiring contact tracing?
- How much time is between parties to allow for cleaning?
 - Are there cleaning requirements between the parties or rounds?
- Where in the facility can voting between parties occur?
 - If bedrooms were used in the past, should they still be used?
- Where in the facility should membership selection occur?
- Can outside space be used to recruit to allow for more social distancing?

BID DAY

- How many people will be allowed in the facility for Bid Day?
 - Does this number include only initiated members and new members or volunteers?
 - Will Bid Day be split into smaller parties?
- Are new members and active members required to wear face masks or personal protection equipment?
- Is the university requiring contact tracing?
- Can outside space be used on Bid Day?
- Will food be provided and how will it be served?
- Will outside vendors be used on Bid Day (i.e., photography, DJ, food truck, etc.)?
